

## BEDRADINGS DIAGRAM VIR KARAVANE/TREILERS

### WIRING DIAGRAM FOR CARAVANS/TRAILERS

Sleutel/Key:

1. Linkerkantste flikkerlig / Left indicator
2. Yskas of spaarpunt / fridge/spare
3. Aard / earth
4. Regterkantste flikkerlig / right indicator
5. Agterligte / rear lights
6. Remligte / brake lights
7. Agterligte [ NB 5 en 7 word gebrug] / rear lights [NB 5 & 7 are bridged]

Onthou om jou treiler of karavaan eers te koppel aan die sleepvoertuig voordat daar getoets word want die trekstang se bal is die aard na jou karavaan/treiler se onderstel.

Remember to connect the caravan or trailer to the towing ball before testing as the towing ball acts as the earth to your caravan/trailer chassis.
